## **DETAILED ACTION**

### **General Information Matter**

Applicant filed Amendment on 07/20/2011 for application 10/593016 cancelling claims 45-48, and amending claims 1, 8, 16, 29, 31, 33, 34, 36, 37, 39, and 40. Currently, Claims 1-24, 29-31, 33, 34, 36, 37, 39 and 40 are pending.

### ***Response to Amendment***

The amendment received 07/20/2011 has been entered and considered in full.

### ***Response to Arguments***

#### ***Claim Objections***

Claim 45 and 48 were objected for being identical. Applicant has since canceled the claims to remedy the issue noted in the previous action; therefore, the previously outstanding objection is hereby withdrawn.

#### ***35 USC § 112***

Claims 45-48 were rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant has since canceled the claims to remedy the indefinite issues

noted in the previous action; therefore, the previously outstanding grounds of rejection under 35 USC § 112 ¶2 are hereby withdrawn.

**35 USC § 103**

- Claims 1-7, 29-31, 33-34, 36-37, 39-40 were rejected under 35 U.S.C. 103(a) as being unpatentable over Nicoletti in view of Basiji and further in view of Young.
- Claims 8-23 were rejected under 35 U.S.C. 103(a) as being unpatentable over Nicoletti in view of Ortyn and further in view of Young
- Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over the combination of Nicoletti, Ortyn and Young as applied to claim 16 above, and further in view of Fraatz.
- Claims 45-48 were objected to as being allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and removing any 112 2<sup>nd</sup> issues.

Applicant has further clarified the claimed invention; see the amendments to claims 1, 8, 16, and 29 which now recite limitations from dependent claims 45-47, respectively, (previous “objected to” dependent claims, see the previous office action sent on 07/14/2011). Thus the amendments and further applicant’s remarks see pages 8-9 are persuasive.

The Examiner believes that all the arguments of the Applicant(s) have been properly addressed and explained.

***Priority***

This application claims benefit of a National Stage Application No.PCT/US05/08870, filed 03/16/2005. This application claims benefit of an earlier filing date under 35 U.S.C. 119(e) of U.S. Provisional Application 60/553502, filed 16 March 2004.

***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 07/27/2011 are in compliance with the provisions of 37 C.F.R. § 1.97. Accordingly, the examiner has considered all references cited in the submitted IDS(s).

***Allowable Subject Matter***

Claims 1-24, 29-31, 33, 34, 36, 37, 39 and 40 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: the amended claims are allowable due to applicant amending each of the remaining independent claims (1, 8, 16, and 29) to include the limitations set forth in the previously presented Claims 45-47, respectively, ("objected to" dependent claims, see the previous office action sent on 07/14/2011), and the persuasive arguments of the Applicant (see applicant(s) amendment of making the objected to dependents into an independent form, applicant's arguments, filed 7/20/2011, Pages 8-9).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### ***Comment on 35 USC § 101***

Independent claim 1, 8, 16, and 29 are in a “process” claim format and have been analyzed in light of *Bilski et al v. Kappos*<sup>[1]</sup>, and the relevant guidance<sup>[2], [3]</sup>. The independent claims are not directed to an abstract idea at least because the independent claims encompasses more than just a statement of concept, and describes a particular solution to identifying cells using spatial frequency. Furthermore, the independent claim tangibly implements the method at least because a processor or equivalent hardware is necessary to perform the claimed “collecting/providing” and “analyzing/comparing” steps. Therefore, based upon consideration of all the relevant factors<sup>[3]</sup> with respect to the claims as a whole, claims 1, 8, 16, and 29 are not directed to an abstract idea.
